## Skills

---

For 20+ years, I have designed, written, tested, documented, and supported applications on the web using a variety of frontend and backend technologies including but not limited to:

- Linux/Mac OS
- PHP/Perl/Python
- HTML/JavaScript
- MySQL/PostgreSQL/SQLite
- git/Github
- Agile/Jira
- Automated Testing/TAP/Selenium

I have also lived an examined life as an artist, an outdoor guide, a traveler, and a writer.

---

## Experience

---

### Simoni Creative / Independent Software Developer + Consultant

December 1999 - present

Design, develop, test, deploy, consult, and support open source software for clients around the world.

### VictorOps / Manual Testing Analyst

September 2017 - May 2018, Boulder, CO

Software product manual tester, working with various teams to ensure an extremely high level of quality of our SaaS app and catching problems well before our clients are ever affected.

### Review Editor / OutdoorGearLab

March 2020 - Present, Cheyenne, WY

Test, review, compare, rate and write about products released by the Outdoor Industry.

### Andrew Skurka Adventures LLC / Assistant Backpacking Guide

September 2018 - September 2019, Boulder, CO

Guiding once in a lifetime 3-7 day trips in the High Sierra CA, Gates of the Arctic National Park AK, and Rocky Mountain National Park CO. Help

teach navigation, off-trail travel, intelligent gear selection, and other backcountry skills such as: camping, cooking, and hygiene.

---
